Food Assistance

Supplemental Nutrition Assistance Program or Food Stamps (SNAP)

About the Program: SNAP provides money every month for you and the people you live with to buy food. You can use the money at grocery stores, convenience stores, drug stores, and other approved retailers. The money is provided automatically on a card called an EBT (electronic benefit transfer) card that works like a debit card. The amount of money you get depends on your income but the highest amount is \$192 for one person, \$352 for two, \$504 for three, \$640 for four, and \$760 for five. The length of time you get money before you need to reapply depends on your application. The program also provides nutrition education.

Who is Eligible: You need to be a citizen or documented resident who has lived in the US for 5 years. Qualification is based on your monthly income and how many people you live with. Your monthly income needs to be less than \$1307 for one person, \$1760 for two, \$2213 for three, \$2665 for four, and \$3118 for five. You also need to have less than \$2250 in resources or less than \$3500 if you or someone you live with is over 60 or disabled. If you own a car, its value over \$4650 applies to your resources, but some cars are excluded from this. SNAP has a work requirement, meaning that if you're an adult and are working, you cannot reduce your hours or quit your job and if you aren't working but are able to, you need to look for work and take any job that you're offered.

If you have a monthly income less than \$150 and less than \$100 in resources or the combination of the two is less than your rent and utilities, you can apply to speed this up to 7 days. If your application is approved, you will be told how much money you get and get your EBT card.

WIC also provides breastfeeding support, nutrition education, and referrals to healthcare providers.

Who is Eligible: You need to be a citizen or documented resident who has lived in the US for 5 years. You are eligible if you are pregnant, gave birth in the last 6 months, or gave birth in the last year and are still breastfeeding. Infants and children under 5 years old are also eligible.
